

# Wateree Camporee

May 15-17, 2009

Troop 108

**Cardboard Boat Race-** The cardboard boat race is coming so you need to get with your team and build a good design. The supplies you need are cardboard, water proofing, paint, glue, and rulers (also water guns and sinking devices are optional). The idea is to build a boat that no one else has seen before like the box shaped boat. Another helpful hint is to sink your boat or wining the race which is optional. Remember that all cardboard will need to be brought to shore at the end of the race.

**Packing-** What do I bring. First on your list are clothes; do not go Stone Age and embarrass the entire troop. You need at least two days worth of clothes, a mess kit, a water bottle, a flashlight, and a swimsuit. It is a promise that you will get wet. Sleeping bags are also advisable.

**Other Activities-** These involve the canoe race and other fun stuff.

**Menus-** Should already be planned and the person buying needs to buy for the entire patrol.

Last thing have fun and good luck!

Meet at the Scout Hut on Friday, May 15 at 6:00 pm. **DON'T FORGET** your permission slip and \$25.00.
